

VESTLAND ADVENTURER

PASSENGER SHIP

The MV Vestland Adventurer was originally built in 1972 by Helsingør Skibsværft og Maskinbyggeri A/S in Helsingør, Denmark, as a car/passenger ferry named Kattegat for Jydsk Færgefart A/S.

Over the years, the vessel operated under various companies, including P&O and Viking Line. In 2008, it was acquired by Gap Adventures and renamed Expedition, following a major conversion from ferry to passenger vessel at Aker Yard in Finland. It then began sailing in Arctic and Antarctic waters.

The ship has undergone several upgrades, including:

- Replacement of the main engines in 2015 (Genoa)
- Replacement of auxiliary generators in 2017 (Lisbon)
- Installation of a new propulsion and maneuvering system from Kongsberg in 2022

In 2025, the vessel was purchased by Vestland Classic (Norway) and continues to operate in polar regions.

With Ice Class B certification, the robust ship accommodates up to 130 guests and offers global voyages with high safety redundancy.
